

What do I bring/need for my appointment?

Every time you come to hospital for a test, day procedure, appointment or treatment, you should bring:

- Medicare card
- Health Care card (if you have one)
- Concession card (if you have one)
- Adverse drug alert card (if you have one)
- Medications you are currently taking, including any that you have bought without a prescription
- X-ray films, scans, ultrasounds or any other test results you have which are related to your procedure
- Referral from your doctor (if you have a copy)
- Private health insurance card (if you want to use it)
